

PROSPECT LIST

Follow the directions in the training manual as you begin work on your Prospect List. Photocopy this page and expand your list as you work your Neways business. Each page holds 25 names. Try to keep a list of 200 prospects at all times. Add to it as you meet people, and remember to come back to it after occasions like reunions, business events, and recruiting activities. Devote time each week to building and maintaining your list.
